MESSAGE FROM THE PRESIDENT

De La Salle-College of Saint Benilde continues its movement towards Inclusion and Innovation through Expanding Horizons in various areas such as partnerships, locations, campuses, facilities, and faculty.

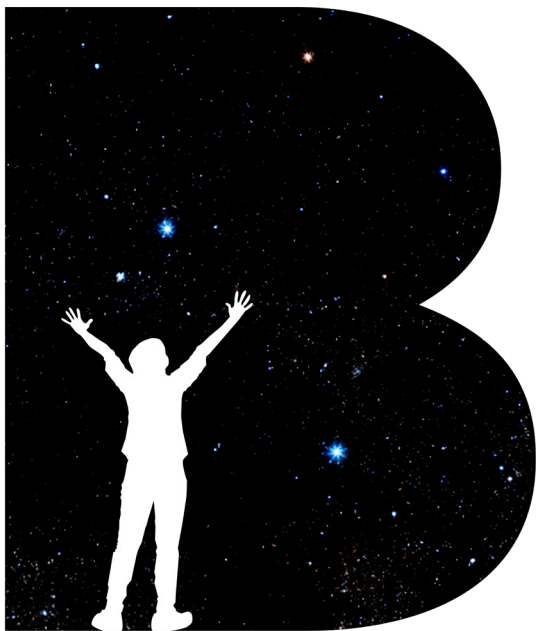

In here, we feature a Borderless Benilde that is realised through the pedagogically-driven integrated learning platform called BigSky Benilde.

Along with internationalization efforts of the College, this also includes updates on the implementation of the campus master development plan, the establishment of Benilde Antipolo and the start of Benilde Boracay.

This annual report encapsulates the College's broadened horizons in keeping with its vision-mission to build a just and humane society through inclusion and innovation. These endeavours also support Benilde's preparations for the influx of students after the impact of the implementation of the K-12 program in the country.

Expanding horizons takes a look back at undertakings to establish an Extraordinary Benilde.

BIGSKY BENILDE

The College launched BigSky Benilde, a pedagogically-driven integrated learning platform created to be accessed anytime, anywhere, by Benildians that is powered by D2L's Brightspace. It includes features like Competency Mapping and Predictive Analytics provide the tools for individualized, asynchronous learning and intelligent data for predicting learning behavior patterns and trends. Likewise, its accompanying mobile applications like Pulse, Binder, and Assignment Grader provides both students and teachers with access to learning anytime, anywhere.

BigSky Benilde has been integrated with the Student Information System Portal, so teachers can simply "get grades from BigSky" and transfer students' grades with one click of a button. WorldCat Discovery, one of the world's most comprehensive library databases has also been integrated into BigSky Benilde to provide our teachers and students a global network of library collections. This year, the College also initiated several research endeavors to validate experiences and observations with the new integrated platform.

With BigSky, the College expanded the horizons of learning experiences through "Borderless Benildean Education".

MAJOR INFRASTRUCTURE

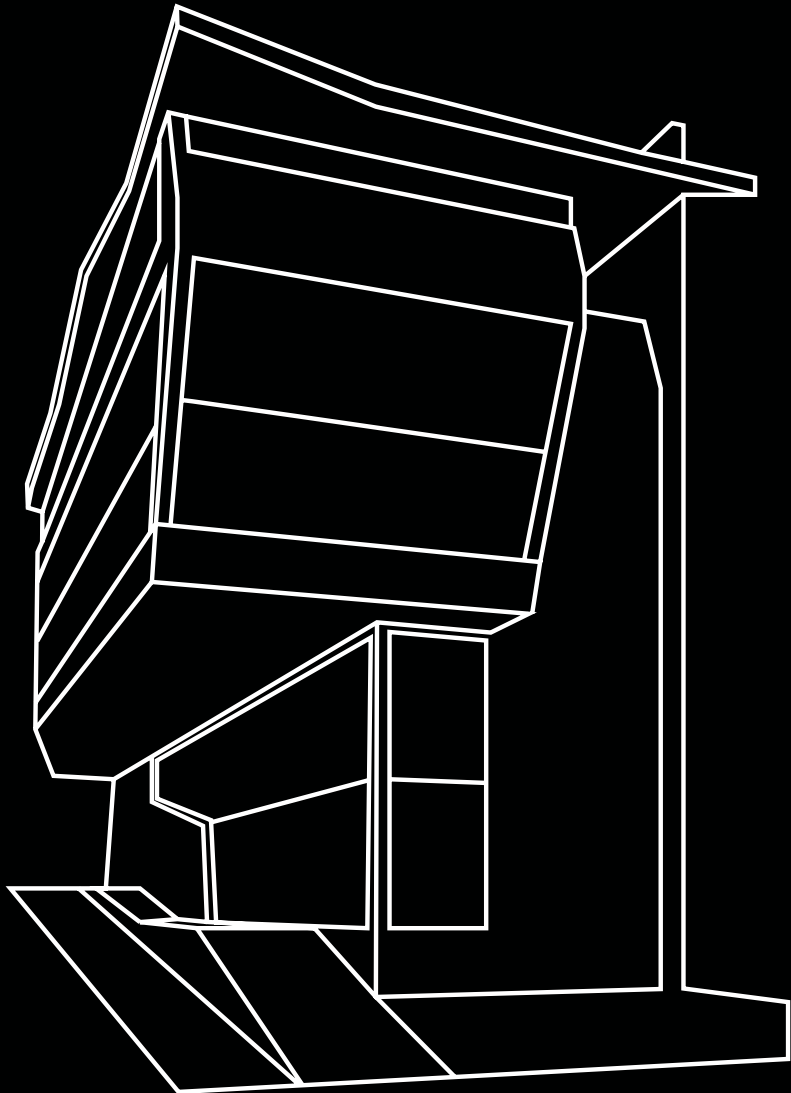

Benilde Infrastructure

In preparation for the influx of students after the effect of the K-12 program, De La Salle-College of Saint Benilde is set to build four buildings in the next three Academic Years. The groundbreaking ceremonies of the following buildings have been completed in AY 2016-2017.

DE LA SALLE-COLLEGE OF SAINT BENILDE

 New Campuses/buildings are still under construction.

MAJOR INFRASTRUCTURE

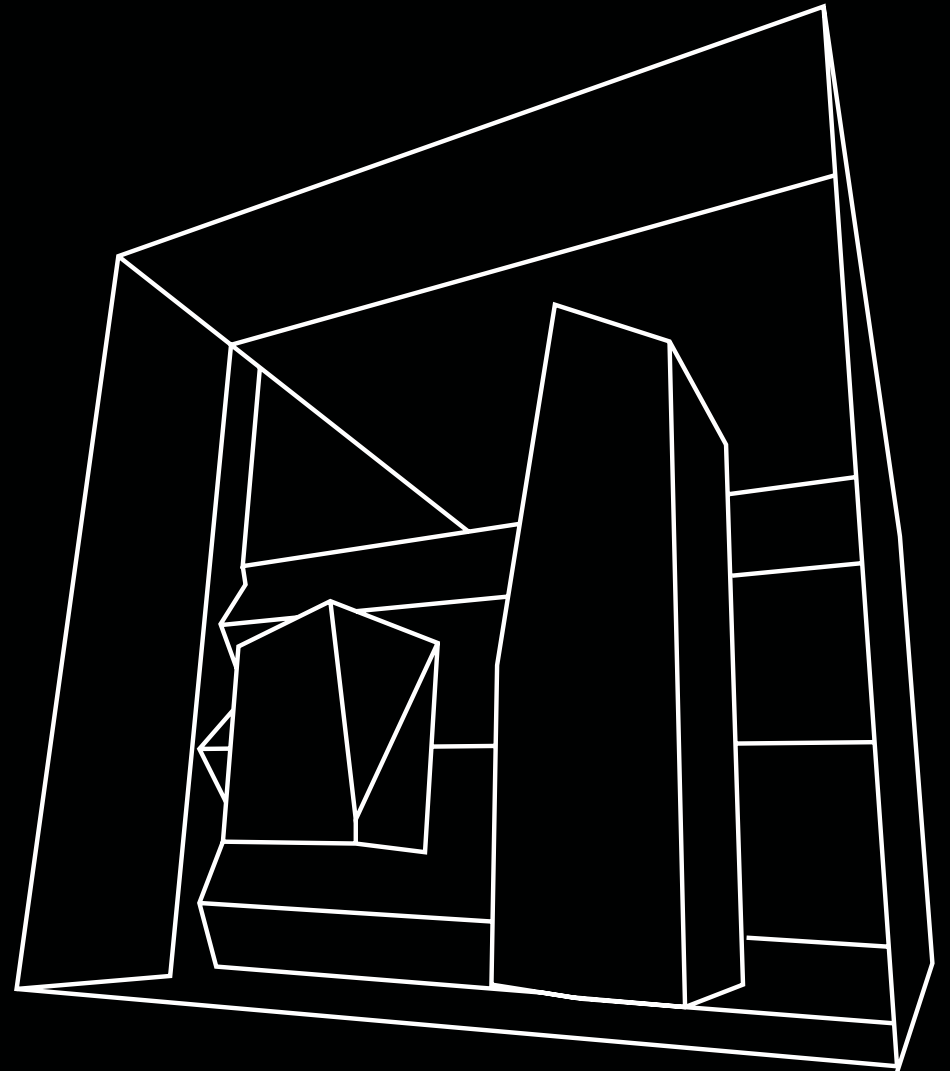

The Generator

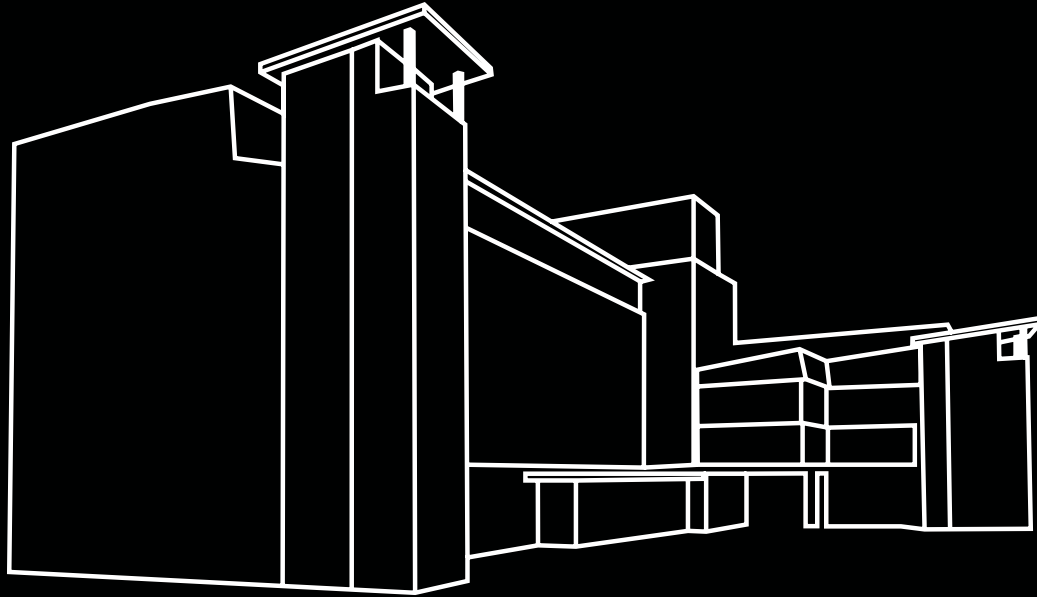

The Generator is the new student lounge in front of the School of Design and Arts Building. The Generator, space for “generating ideas” answers the need for collaborative spaces for students and will be ready by the first term of AY 17-18.

MAJOR INFRASTRUCTURE

Peter D. Garrucho Innovation Hub

Through the donation of Mr. Peter D. Garrucho, the Hub for Innovation for Inclusion is set to build an innovation space for social good by May 2018. The space is located along Pablo Ocampo Street and is envisioned to provide an open platform for collaboration and mentoring of innovators.

MAJOR INFRASTRUCTURE

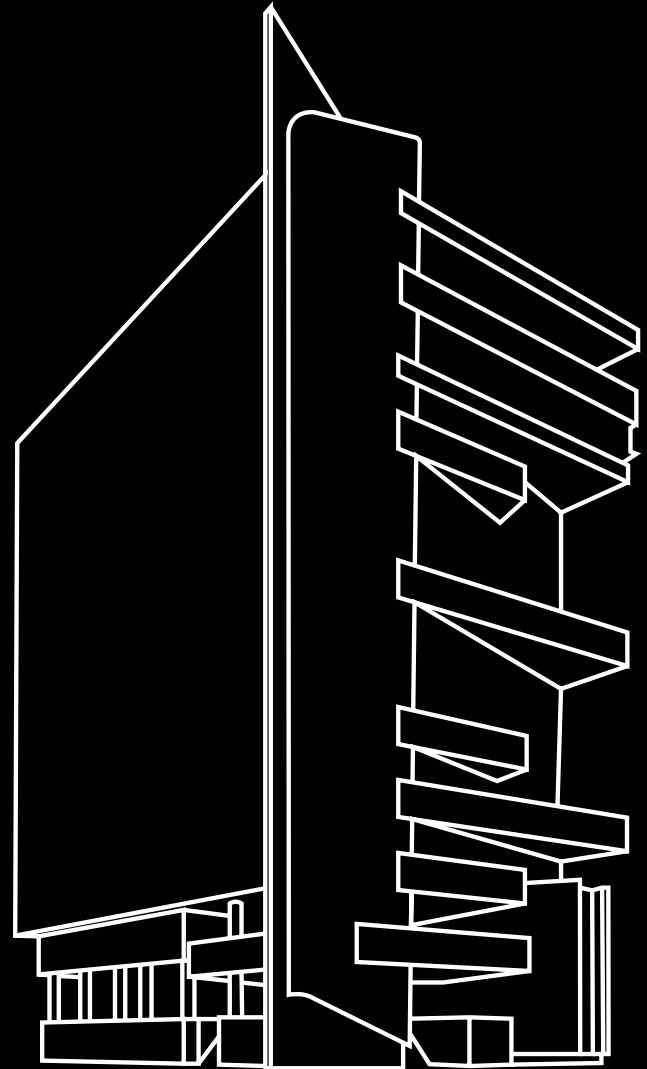

Dormitory and Sports Complex

The College is set to construct its first Dormitory and Sports Complex in the AY 2018-2019. This building is located along Muñoz Street and near the School of Design and Arts Building. This will be the new home of Benilde's Scholars, the Blazers, Benilde's Varsity Team and Center for Sports Development (CSD). The building will provide a home for our scholars and athletes and at the same time provide facilities for health and recreation of the Benilde Community.

MAJOR INFRASTRUCTURE

Academic Building 4

As part of the Campus Master Development Plan, the College is set to build Academic Building 4 located at Arellano Avenue. Designed to provide new academic spaces for Benilde, AB 4 will be the collegiate home of the Frosh and General Education courses. The building will be the new home of the School of Professional and Continuing Education (SPACE), the LaSallian Mission and Student Life (LMSL), and the Data Center of the Information Technology Department (ITD). The School of Hotel, Restaurant and Institution Management (SHRIM) will be provided facilities for public culinary courses and hospitality training.

BENILDE INTERNATIONALISATION

The College internationalisation program focused on strengthening its academic global partnerships for student mobility, student exchange, faculty mobility and faculty exchange programs across 12 countries. A number of these partnerships are also vital in curriculum and faculty development of different degrees and the offering SHRIM's double degree program.

One highlight in the internationalisation program is the College's participation in the One La Salle Initiative with the International Association of La Salle Universities (IALU). De La Salle-College of Saint Benilde agreed to co-operate toward the internationalization of higher education through semester-long student exchanges for non-degree seeking students at the Receiving Institution in the next academic year.

BENILDE INTERNATIONALISATION

BENILDE ANTIPOLO

Pursuant to its vision and mission, Benilde aims to extend to Antipolo the Benilde brand of academic excellence that is both inclusive and innovative in character. Benilde Antipolo will continue to offer the existing programs from LSCA, namely: Bachelor of Science in Accountancy, Bachelor of Arts in Communication, Bachelor of Science in Psychology, Bachelor of Science in Hotel and Restaurant Management (with focus on either Hospitality Management or Tourism Management), Bachelor of Science in Business Administration (major in Marketing Management), Bachelor of Elementary Education, Bachelor of Secondary English Language Education, Bachelor of Secondary Mathematics Education, and Bachelor of Secondary Science Education.

A Provost will be in-charge of the over-all operations of Benilde Antipolo, and is specifically responsible for the administration of the College and the efficient management and delivery of the College's programs and services that create appropriate learning environments and are in support of the College's strategic directions.

BENILDE

BORACAY

BENILDE BORACAY

In 2016, Benilde worked with the Boracay Department of Education to give a series of Technical Vocation Modules on HRIM tracks for Boracay National High School Teachers that was facilitated by the School of Hotel, Restaurant and Institution Management (SHRIM) Faculty. This initially served as a Community Service response of the College that led to realisation of the need for a TESDA-accredited training Centre in Boracay Island.

Since Boracay is a world-renowned tourist destination, the College saw the potential of locals to be hired in the hospitality industry of the area; thus, the College pursued the direction of putting up a Training Centre for locals to acquire vocational skills.

In 2017, the property for Benilde Boracay Training Centre was purchased for construction in the following academic year.
